

# Tyler SIS Mobile

To schedule individual training for your district, contact [SISTraining@tylertech.com](mailto:SISTraining@tylertech.com).

## Overview

When a Tyler SIS site is accessed via an iPhone, iPod touch, or BlackBerry, the code recognizes it is being viewed on a mobile device and automatically displays the mobile version of the pages.

As with the login screen on the full site, the user must indicate if they are logging in as district staff, a parent, or a student by clicking the appropriate button at the top.

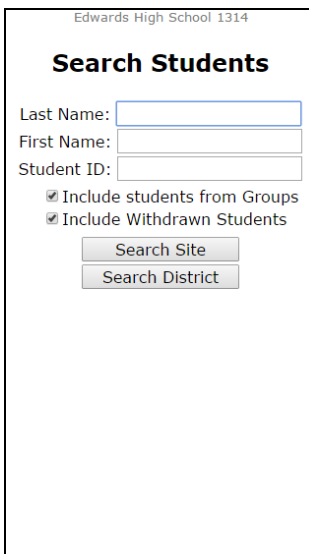

If the **Remember me on this device** box is checked, the User Name will fill in automatically the next time this page is accessed. The password will always need to be entered, to maintain security.

---

The full (non-mobile) site can be accessed by clicking the **Full Site** link in the lower right corner. If Tyler SIS is being accessed via a tablet or a phone with a large screen, the full site may be preferred.

---

## Login as Staff

The default screen for staff is Search Students.
